

California and Federal Employment Posters available through the Chamber

California employers and businesses are required to post updated employment posters at their places of employment. As an employer it is your obligation to communicate them to your workers. Companies that are found not to be in compliance are subject to substantial fines.

The Chamber, through our strategic partnership with the California Chamber of Commerce, has the 2008 Required Notices Poster for sale. With this purchase, you will receive, on one convenient poster--all 16 of the most current state and federal-required notices. Mandatory updates include the new minimum wage increase, DFEH and Workers' Comp guidelines among others.

Posters are \$23 prepaid to the Chamber. Call the Chamber office at 384-7092 to order and pay for yours today.
